Good new energy

Carmen Rodríguez
Regulatory Analyst
Enagás is

We have new challenges and we adapt to new situations and ways of working. We reinvent ourselves. That’s why we say “new”.

We are very good at what we do because responsibility and quality guide our daily activity. But we are not arrogant or conceited. That’s why we say “good”.

We have potential and strength. Enthusiasm and willingness. We have energy and work with natural gas, the cleanest fossil fuel and with the most possibilities for the future. That’s why we say “energy”, new energy.
Enagás Emprende

The Corporate Entrepreneurship and Open Innovation Programme at Enagás:

- Internal entrepreneurship
- External entrepreneurship
